**Public Board of directors  
Governance report  
September 2025**

**1. Purpose of the report**

The purpose of the report is to provide key updates on governance related matters for the Board of directors. The paper includes appended reports, which provide more content and detail. The paper sets out:

- A further update on the annual process for receiving declarations of interests, gifts, and hospitality for staff below the Board.
- An update on the process for the Board review of effectiveness
- Details of the annual members meeting 2025
- Progress of the change and improvement work following a well led review by the good governance institute (GGI).

The governance report forms part of the annual work programme and provides assurance on all governance related matters each quarter, as well as any updates on key areas of focus. The report sets out the arrangements in place to support appropriate and timely governance and monitoring arrangements.

**1. Declaration of Interests 2024-2025**

As per our managing conflicts of interest in the NHS policy, the annual process in place for the declarations of interests, gifts and hospitality has been underway since December 2024.

The Board approved the declarations for the current financial year for the Board and for all governors currently serving on the Council of Governors at the meeting held in July 2025, no declarations were pending.

The Board previously received in July an updated declarations for the current financial year for all staff Band 7 and above who must respond to and support the call for declarations of interests, gifts, hospitality, and sponsorship. At this time, it was noted that executive leads would receive an updated list of all outstanding staff members to support achieving 100% compliance as only 530 declarations out of the required 753 were reported which accounts for 71.6%. It was agreed an update would be provided to the Board in September 2025.

Significant work has taken place during August and September to increase reporting to **85% compliance** with the support of the executive management team who took time to call in remaining declarations and the number of declarations processed at the time of reporting stands at 637. It is expected that this will increase, following the processing of all declarations received to date to finalise the remaining 15%. A process continues to be in place to ensure that gaps are identified, and action is taken.

Each declaration has been reviewed by the corporate assurance team and followed up with individuals and their line managers where necessary. Relevant registers have been escalated and forwarded to individual directors for oversight.

It should also be noted that there has been a significant improvement in engagement compared to the previous year, where we had response from 46% of individuals (329 responses from a pool of 717 individuals).

Work is progressing to migrate the calling in of 2025-2026 declarations from a manual process to an electronic process via the electronic staff record (ESR) which will aim to further improve engagement and streamline efficiency within the corporate assurance team.

## **2. Board review of effectiveness**

The questionnaire for the board review of effectiveness is under review following recommendations from the GGI well led review. The questionnaire will be circulated to Board members once it has been agreed by the Chair and Chief executive where it will be received by the Board at the meeting in November 2025.

## **3. Annual members meeting 2025**

A public meeting must be held each year as an annual member meeting before 30 September to receive the final annual report and accounts 2024-2025. **This year the Trust will hold the meeting on 25 September 2025** from 4.30-7.30pm at Millenium Gallery in Sheffield city centre. The theme for the meeting will be inclusion which will be celebrated through cultural foods, inclusive themed artwork that will be used as the cover for the new communications, involvement and equality strategy, accessible materials co-designed in partnership with MENCAP, a graphic artist to record the meeting as well a loop system and BSL interpreter. A quiet sensory room will also be made available, and our SHINE award winners will be visible because they are wearing badges.

At the meeting we will formally receive and approve the annual report and accounts 2024/25 which was laid before parliament on Monday 15 September. The meeting will celebrate the Trust name change and university status and launch the new Trust brand.

Presentations on the previous year's performance and achievements, including quality and financial accounts for 2024/25 will pave the way for the look forward. The meeting will be used to launch the new Trust strategy and accompanying summary, easy read and animation. The evening will invite partners, staff and governors who are also hosting information stalls as well as the wider public.

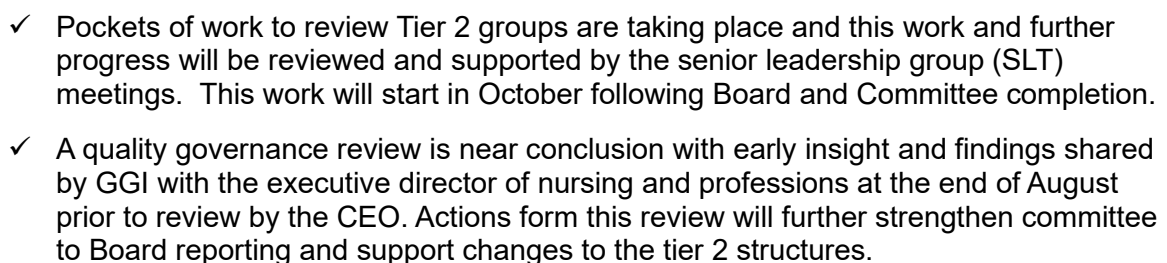

## **4. Well-led review action plan**

The Trust appointed the good governance institute (GGI) to conduct a developmental well-led governance review, and this took place from December 2024 to April 2025, including fieldwork from November 2024 to February 2025.

The insight from the report of findings has provided assurance as well as evidence of areas of improvement. The focused areas of improvement are:

- Cultural improvement and values work
- Improvements to governance arrangements and reducing meetings and duplication
- Revisit the reporting lines of tier 2 groups
- A review of the cycle of business, using the board assurance framework
- To develop report writing skills so they focus on assurance
- Review the membership of Board committee meetings
- Continue to embed freedom to speak up in all that we do
- Focus on equality, inequality, equity, and sustainability
- Embed a learning culture for incidents, complaints, and claims
- Continue to support staff networks so they can thrive

- ✓ Values work continues to be rolled out through events, roadshows and publicity.
- ✓ All committee, executive team (EMT) and Board work plans and membership have now been reviewed with the executive and non-executive directors. The work is being displayed in the corporate team office for final feedback. After this a final review by both the CEO and Chair will complete the review for final sign off by both Committee members and Board in October 2025.

of all policies by each lead has determined governance arrangements which have been RAG rated. A red policy will be subject to increased scrutiny which includes the full policy presented at committee and EMT sign off, whereas a green policy will sit with the policy governance group. Further work to ensure EIAs are completed robustly will be supported by a Trust wide toolkit to ensure we can demonstrate our public sector equality duty and equality legislation compliance. Work on the SOPs is taking place in parallel through SLT to align and condense as well as remove duplication.

- ✓ Report writing training continues to be rolled out with two training sessions held so far and monthly sessions planned going forwards. The training is open to anyone with a focus on reporting for assurance and ensuring templates are completed in line with governance requirements.
- ✓ A report writing checklist has been co-designed with executive assistants to ensure quality reports are checked prior to submission for each directorate – this information is shared through training and a Jarvis page for staff will host tools and provide instructions – this work is planned for Autumn.
- ✓ Freedom to speak up approach and campaign has now been co-designed, and work is taking place to support the completion of the self-assessment tool with identified subject leads up until December 2025, when the Board will review the findings and complete the final Board assessment. Working groups are planned to start quarterly from January 2026 focussed on an action plan to support improvements and case studies to demonstrate progress.
- ✓ Owen McLellan has now been identified as the NED lead for sustainability in line with the GGI recommendation.
- ✓ Aligning all the strands of equality and equity through a working group with a clear reporting and governance structure is now being finalised.
- ✓ Work to develop case studies to ensure a culture of learning from claims is now in progress and will feature in reports going forward.
- ✓ Staff networks continue to be supported and developed.

## 5. Recommendations

The Board of directors is asked to:

- **Approve** for publication on the website the updated declarations of interest staff register.
- **Note** the update on the annual members meeting.
- **Note** the update on the annual members meeting.
- **Note** the update on the GGI well-led review.

| Spouse is Managing Director of Urgo UK supplier of medical devices to NHS  | Personal   |
| completing a PhD with the University of Sussex, which was jointly funded by SeNSS, ESRC, and Sussex Partnership NHS Foundation Trust, as part of a SeNSS collaborative studentship that I was successful in securing in 2020.<br>This funding was a full MRes/PhD stipend that has now ceased. I also received research funds during this PhD, known as RTSG, to cover costs of my own research, e.g. pre-registering my research, attending conference. | Financial  |

| I sit on a committee in a church which gives grants to local voluntary organisations. During 2024, one of the grants we donated to was a small project run by GP surgeries in the Foundry PCN network. (they give small grants to patients in urgent need – eg, bus fare to a food bank, emergency utilities, fleeing domestic violence). It isn't linked to my role as a psychologist at all. | Financial  |
